

A simple machine used for wrapping a flat strip of wire around a circular core. The core can be of various materials, (not necessarily metallic). The flat strip is wound around the core creating a spiral based on the width of the strip.

The same unit can also wrap a round wire around the core, as well as wrap multiple strips/wires in different colors simultaneously.

MAC 1

Technical features

Wrapping speed	450 rpm
Chain Ø (min.)	0.55 mm
Chain Ø (max.)	6.0 mm

Technical data

Voltage (singlephase)	230 V 50/60 Hz
Power	0.55 kW
Compressed air	10 l/min (filtered) at 4 bar

Dimensions
packing

86 x 43 x 195 (h) cm
