## CUP CHAIN MACHINE

The CCM Cup Chain Making Machine by Ciemmeo is a fully automatic system for the production of high-quality cup chains. It forms and assembles cups and links continuously, creating a precise and uniform chain designed to hold stones securely.

This cup chain making machine starts from a flat calibrated metal strip which is stamped into individual cups and connecting rods. The assembly process is continuous, producing a chain of open cups ready for stone setting. For additional strength, a laser welding unit can be integrated to close the prongs and reinforce the structure.

### MAIN FEATURES

- Creates joined cups in a chain
- 80 cups/min for 1.50 – 3.00 mm Ø stones

### TECHNICAL DATA

| | |
|---|---|
| Max. production speed | 80 cups/min |
| Stone diameters | 1.50 – 3.00 mm |
| Voltage (single phase) | 230 V 50/60 Hz |
| Compressed air | 160 l/min |
| Power | 700 W |
| Dimensions | 65 x 72 x 155 (h) cm – 165 kg |
| packing | 80 x 180 x 70 (h) – 70 kg |
