PRODUCT DETAILS

FG7

PROGRAMMABLE TWISTING MACHINE

The FG7 High-Speed Chain Twisting Machine by Ciemmeo is a compact programmable system that twists all types of compacted, compressed, or stiffened chains at up to 380 cycles per minute. It combines high performance with easy operation and fast program setup.

This high-speed chain twisting machine is fully motorised and controlled by an electronic programmable controller. Without mechanical cams or belts, setup time is drastically reduced and production can be changed instantly between chain types.

MAIN FEATURES

- Creates fantasy chains with programmable twisting/squeezing
- Max width 6 mm
- Optional colour distinction
- Up to 380 cycles per minute

TECHNICAL DATA

Machine speed	up to 380 cycles/min.
Chain width	6 mm max. (Larger sizes on request)
Voltage (single-phase)	230 V 50/60 Hz
Power	0.55 kW
Dimensions	40 x 40 x 190 (h) cm – 90 kg
Packing	60 x 156 x 65 (h) 140 kg

Note: The above data, features and characteristics are not binding. Ciemmeo s.r.l. retains the right to vary them at any time without prior notice.
