MIB1/2

BAR/STRIP INSERTING MACHINE

The MIB1/2 Bar and Strip Inserting Machine by Ciemmeo is an automatic unit designed to insert metal bars or strips inside chain links. It offers high-speed, accurate, and repeatable results for cable and curb chains, including Figaro patterns in the MIB2 version.

This bar and strip inserting machine integrates perfectly into chain manufacturing lines, positioning each bar or strip precisely inside the chain link before closure. It supports both fixed-pitch and variable-pitch configurations, allowing automatic alignment and synchronisation with the chain movement.
