AUTOMATIC STONE SETTING MACHINE

The MMP2 Automatic Stone Setting Machine by Ciemmeo is a fully automatic unit designed to insert and secure stones into cup chains. Compact, precise, and easy to use, it ensures uniform stone positioning and prong closure for flawless chain finishing.

This automatic stone setting machine receives the processed cup chain and feeds the stones from a vibrating hopper into the insertion tooling. Each stone is positioned into the waiting cups, while the prongs close automatically around it, guaranteeing secure and repeatable results.

MAIN FEATURES

- Inserts stones and closes cup prongs
- Processes 1.50 – 3.00 mm Ø stones
- Multicolour kit available for programmable stone sequencing
