PRODUCT DETAILS

SN7

CHAIN LIMBERING MACHINE

The SN7 Chain Limbering Machine by Ciemmeo is an automatic system designed to straighten and limber hammered chains of any section, including round, square, oval, or triangular shapes. It ensures perfect alignment, flexibility, and structural integrity after the hammering process.

This chain limbering machine performs a full 360° adjustable limbering and straightening action, allowing precise control over the radius and tension applied to each chain. The adjustable mechanism makes it possible to process a wide variety of chain types and sizes.

MAIN FEATURES

- Limbers round, square & oval hammered chains
- Compensates spiralling
- Chain Ø up to 4 mm
- Pushing and pulling motors

TECHNICAL DATA

Production speed	4.5 m/min.
Chain Ø	4 mm
Voltage	230 V 50/60 Hz
Power	1 kW
Dimensions	76 x 60 x 88 (h) cm – 57 kg
Packing	90 x 62 x 78 (h) cm – 92 kg

Note: The above data, features and characteristics are not binding. Ciemmeo s.r.l. retains the right to vary them at any time without prior notice.
