# SRM2

## AUTOMATIC MULTIPLE ROPE CHAIN MACHINE

The SRM2 Multiple Rope Chain Making Machine by Ciemmeo is an automatic high-precision system designed to produce multiple rope chains simultaneously. Built for performance and reliability, it offers advanced synchronisation, flexibility, and consistent chain quality across all production lines.

This multiple rope chain making machine combines mechanical stability with advanced electronic control to ensure perfect alignment and repeatable quality. Each chain line operates with independent control through synchronised brushless motors managed by optical fibre sensors for real-time feedback and positioning.

### MAIN FEATURES

Wire Ø from 0.30 to 2.50 mm

14 synchronised brushless motors

Optical fibre control

Miniaturised focusing scope

Optional integrated laser

Tele-assistance available

### TECHNICAL DATA

|                       |                                |
|-----------------------|--------------------------------|
| Max. production speed | up to 80 links/min             |
| Wire Ø                | 0.30 – 2.50 mm                 |
| Voltage (three phase) | 400 V 50/60 Hz                 |
| Power                 | 3.0 kW                         |
| Compressed air        | 1 l/min (filtered) at 7 bar    |
| Dimensions            | 110 x 90 x 168 (h) cm – 245 kg |
| Packing               | 85 x 85 x 193 (h) cm – 360 kg  |
